Lay the steak, chops, ham or fish on a wire broiler or meat rack, placing it in an ordinary bake pan to catch the drippings.

Allow it to remain in the oven with the door closed 15 or 20 minutes. No turning is required. At the end of this time it will be found nicely cooked ready to serve.

Thus is THE IDEAL WAY TO BROIL MEATS. This is the ideal way to broth Meats.

There is no taint of coal-gas or smoke, and the meats are more tender and better in flavor than those broiled over the coals. The convenience or broiling in the oven will be appreciated by every house-keeper, and adds another to the many reasons why the Charter Oak Range or Stove with the Wire Gauze Oven Door should be preferred to all others now in the market.

If this is so, the chances a reunion are, of course, seriously lessened out Hartington, after all, is anxious that the Government of Ireland should be properly carried on. As Salisbury's Cabinet is failing to do this, he may naturally be cted to turn to the only alternative. With regard to Chamberlain, I believe he is likely to continue to support the Government. So far as coercion is concerned, he has been shown a draft of the provisions of the bill, and his in fluence, no doubt, will be on the side of moderation, but he is a very wary man, and not

A BIG "DEAL."

THE B. & OF RAILROAD BOUGHT BY THE RICHMOND TERMINAL SYNDICATE.

Negotiations to This End Reported to Be Definitely Concluded-The Purchase Effected Through Alfred Sully-Mr. Sully Interviewed-The Jersey Central, Penn sylvania, Reading, Erie, New York Cento Be in the Scheme-Results of the Combination-A Splendid Railroad System Contemplated-Excitement in the New York Stock Market-Disagreeing Officials -Railroad News.

New York, March 9 .- The Times says: The Times is authorized to announce that control of the Baltimore & Ohio Railroad Company passed into the hands of Alfred Sully of New York. Negotiations with President Robert Garrett have been in progress for some time. Yesterday and late into last night there were important meetings relative to the transaction. To-day Mr. Sully will be able to show in Wall street the written contract by virtue of which Mr. Garrett puts him in possession. This is the greatest, and bids fair to be the most influential, railway deal that has taken place in this country within many years. It throws other affairs of the sort far into the shade.

The possibilities of this new control are beyond estimation. By the acquirement of the Baltimore & Ohio Raliroad-the one railway of the land that has ever been considered out of the market-Mr. Sully and his friends become ntrollers of what is probably the most exensive railway system in the world. It most parts of the South and far into most parts of the South and far into the West. It includes the Central Railroad of New Jersey, the Philadelphia & Reading, the Richmond Terminal and Richmond & Danville properties; the East Tennessee, Virginia and Georgia lines; the Central Railroad of Georgia, and now, last of all, the Baltimore & Ohio. And of all these properties there is to be made one great trunk line with 18,000 miles of track. There will be unmeasured wonderment in

There will be unmeasured wonderment in railway and financial circles generally when it comes to be known that the Garretts have really given up their control of the Baltimore & Ohio system. It has been a family prosession; it has been a family pride. The possession was profitable; the pride was well based. But the indications at this time are that Robert Garrett is not to sever his connection with the company. It is considered probable that Mr. Garrett will even continue in the Presidency. The primary idea of his father may be much forwarded by this new deal; now, indeed, does the Baltimore & Ohio Company become a part—and a most important part—of just such a and a most important part—of just such a trunk line as John W. Garrett planned and wished for. By the transfer of the Baltimore & Ohio control to Mr. Sully and the syndicate that is associated with him, the Baltimore & Ohio practically sees its lines lengthened over 7,000 miles in the North and 9,000 miles in the South. And the telegraph were—this wonder.

A leading bank president, in commenting on the importance of the reported saie, said that the railroads represented in the purchasing combination, or in harmony with them, would have control of all the anthracite coal territory in the country.

Mr. Alfred Sully is understood to represent the interests of Mr. Austin Corbin. The Reading, the Pennsylvania, the Jersey Central and the New York Central are all understood to be partles to the great "deal."

PROMINENT BROKER remarked to-day that the new combination would represent the New York Central, Erie, Pennsylvania Central and the Reading and Jersey Central and the East Tennessee, Virginia and Georgia roads the new system would have control of nearly all the seasonst lines from New York to Florida. In consection, too, with the Indianapolis, Bloomington & Western Railroad and a subsequent absorption by that road of the Ohio Southern (or the making of amioable arrangements with that line) the combination would control all the bituminous coal territory except that covered by the Buffalo, Rochester & Pittaburg Road. It is understood that negotiations of some kind are on foot, for the control of the latter road also.

It is supposed that capitalists interested in the Adams Express Company are among the backers of the Sully party with a view to acquiring control of the Baltimore & Ohio the control of the latter road also.

It is supposed that capitalists interested in the Adams Express Company are among the backers of the Sully party with a view to acquiring control of the Baltimore & Ohio Express business, as they have acquired that of the Reading. As to the Baltimore & Ohio Telegraph Line, the syndicate will be in a position to make terms with the Western Union Company if they find this to their interest.

Disagreeing Bailroad Officials.

NEW YORK, March 9. - The Times says: The South is waiting for further developments. That was the opinion of the railroad officers and their view of what ought done to meet the requirements of the interstate commerce law. There were some differences of opinion among the Trunk Line managers and the representatives of the Central Traffic Association when they met in this city last week, but they were harmonious when compared with the conflicting ideas cherished by the Western companies. Intense rivalry, the long hauls over sparsely settled, and therefore unremunerative, districts and the unwillingness to yield a point manifested by some of the roads, are given as the reasons for the Western disagreements. Until the rest of the companies make up their minds

President Winslow of the St. Louis and San Francisco is in the city to-day, and was in conultation during the greater part of the day with General Manager Morrill. He said that with General manager morning the his visit was not of special significance, but was only for the transaction of general business. GOULD'S GRIP

SLOWLY CLOSING ON THE MERCHANTS' BRIDGE PROJECT.

Gould Will See that There is No Termi-nal Railway—Manufacturers Come to His ufacturers Come to His stance in the Council with a New al Bill-The Bridge Company's

Mr. Jay Gould has put the Merchants' Bridge roject asleep. If it wakes within the next onth it will do more than its best friends exsect. If it does not wake within a month pect. If it does not water within an other year. Mr. Gould has made no direct attack upon the project. He is killing it by indirection. He and his representatives among the merchants of the city have the cord around its neck and they are slowly strang-ling it. They have settled it for the present.

Mr. Gould has attacked the bridge project through the auxiliary terminal project. Without terminal facilities the bridge cannot be operated. If the trains which come over the river on the new bridge are to stop on the west river bank and never get beyond that point, very few trains will come across the bridge. It is absolutely necessary that the idge company should have switching yards them with the business portion of the city. Freight cannot be handled between the busicenter and the northern part of the city in wagons without great expenditure and the saving in cost of river transfer to be made by the new bridge would be eaten up by the extra charge of hauling. All these facts being understood, the incorporators of the St. Louis Merchants' Bridge Company as soon as they had obtained from Congress the charter means for reaching the heart of the city from the bridge terminus. While they were thinking it over, a company, with Jas. M. Carpenter, the real estate man, at its head, went to Jefferson City and filed articles of incorporation for a terminal company to handle the cars transferred by the Merchants' Bridge. This company proposed to any proposed to CONSTRUCT A TRACK

for a terminal company to handle the cars transferred by the Merchants' Bridge. This company proposed to

OOSTRUCT A TRACK from the bridge terminus down Main street with an elevated road rising to the height of the present bridge, so that trains on the line of the terminal company could be run into the tunnel and through it to the Union Depot. It also proposed to construct a belt road around the city. The company thus organized was looked upon by the incorporators of the St. Louis Merchants' Bridge Company as a speculative company intended to anticipate the Merchants' Company and probably sell out to it. Knowing that the Terminal Company could not cross the streets of the elity without permission of the Municipal Assembly, the incorporators of the Merchants' Company determined to articipate the new company, and accordingly Mr. Temple, introduced in the temperature of the Merchants' Company determined to articipate the new company, and accordingly Mr. Temple, introduced in the case of the Merchants' Company determined to articipate the new company, and accordingly Mr. Temple, introduced in the case of the Merchants' Company determined to articipate the new company, and accordingly Mr. Temple, introduced in the case of the Merchants' Company determined to articipate the new company, and accordingly mr. On Friday last in the Council Mr. Devoy reported from the Committee on Railroads a bill authorizing the St. Louis Tunnel Railroad and Transit Company to extend its lines from the Western terminus of the tracks of the Union Railway and Transit Company, on Twenty-first street, to a point on Cabanne street, north of the Wabash tracks where they cross Cabanne street these cross Cabanne street these cross Cabanne street these constitutions. chants' terminal bill, with this improvement, that the company proposed to switch for 75 conts a car, and, if the earnings should ever exceed 8 per cent, to reduce the charge to 50 cents, or to such a sum as would have produced 5 per cent on the previous year's busi-

ness.

This bill when reported was thought by the merchants to be an indirect attack on their bill. They claimed that the offer to switch for 75 cents was intended to make it appear that their proposed charge was exorbitant. They

To cents was intended to make it appear that their proposed charge was exorbitant. They claim that the 75 cents would not pay the cost of switching, and that the bill if passed would never be accepted.

To prove that switching could not be done for 75 cents, secretary Kellyof the Merchants' Exchange Transportation Committee produced figures showing that in Chicago in 1884 a total of 115,158 cars, with an average of 13.07 tons to the car, cost 69.2 cents per cart to handle, of which 36.31 cents was for wages of yard men, and 32.89 cents for motive power. Section 9 relating to the acceptance of the franchise, is altered so as to read that within sixty days after the passage of the bill the company shall file a bond in the sum of \$50, 000 accepting "ail" of the provisions and previding that "if said bond is impaired or exhausted it shall be removed." The bond is to hold the city harmless from damages from the construction or "maintenance" of the road.

The most important amendment is that to Section 10, which ordains that in consideration of the privileges granted by the bill the company shall fill and grade Main or First street at its own cost, and pay to the owners of property on Main street the cost of reconstruction, in addition to an annual sum to be fixed by the Council which shall be paid to the city.

PRESIDENT S. W. COBB

struction, in addition to an annual sum to be fixed by the Council which shall be paid to the city.

PRESIDENT'S. W. COBB

of the St. Louis Merchants' Bridge Company, said this morning: "I do not think we can accept the franchise if the amendments are adopted. There is no justice in making us pay for the improvement of the street from Pium to Fiorida streets, where it has already been improved. We will have to refund an enormous amount of money to the property-owners. Then above Florida street it is all swamp and sink-holes. There is one place where there is a sink-hole seventy feet in depth. On a rough estimate I should say the amendments, if adopted, would nearly double the cost of the terminal road. What that cost will be will depend largely upon the site we select for a bridge. We have an engineer now fixuring on the cost of the terminal road. As soon as we have a copy of the amendments, we will have him figure on the extra cost. If the terminal bill is not passed, the bridge will not be built. We have now assurances of all the money necessary to construct the terminal road and the bridge if the terminal bill passes."

None of the incorporators of the Bridge Company believe that the bill will pass in a form in which they will care to accept it. Unless it does the bridge project has received its quietus for a year to come, or until the Municipal Assembly meets again.

to keep the man in jall for thirty days longer suffering with pneumonia than it would be to hang lim now. Then again it is claimed by some that a man is never so content to part with life as when very sick, and that when in good health he will suffer much greater mental torture when executed. Then it is also argued that if the respite is granted, the man may die inside of the time set for the execution, and the gailows thus cheated of its prey. Another view taken of it is that it sets a bad precedent. If this man is respited, it is claimed that others who want time will feign sickness when about to be executed, or eat soap or other stuff to make themselves sick.

An excellent audience assembled at Musi-Hall this morning for the rehearsal of the Musical Union. Fraulein Marianna Brandt was unable, owing to other engagements, to reach the city, and hence did not appear. She will arrive this evening, however, and will sing at the concert to-morrow night. Signor Guido Porigi, the violinist was on hand and undo forigi, the violinist was on hand and cored an artistic triumph arousing by his fine one, brilliancy of execution and almost per-iet technique the enthusiasm of the audi-eace and he was compelled to respond to ncore after his first selection "Airs Russes." the second was equally brilliant.
The orchestral selections are excellent, including Mozart's Symphonie in C Major, Kroeger's suit of waitzes, the introduction to Kretchmer's new opera, "Henry, the Lion," to Suens' "A Night in Lisbon," and "Danse Macabre." To morrow evening Frauelin Brandt will sing Dr. Damrosch's "Sulamith," Schubert's "Du Bist Die Ruh," Marshner's "Volkslied" and Rubinstein's "Lled."

Arrangements for New Men.

Youngstown, O., March 9 .- The striking full to the day they quit, the action indicating that the company considered them discharged employes and would probably make an effort to fill their places. Affairs about the Nypano yards are unchanged. None of the officials of either line have been here this week. At the Valley Mill most of the departments shut down this morning for want of fuel, and unless a supply is received the mill will close entirely to-night. A committee of locomotive engineers on the Nypano left last night for New York, but their mission is unknown outside of the Brotherhood of Locomotive Engineers.

PITTSBURG, Pa., March 9.—The strike of the freight men on the Pittsburg division of the Baltimore & Ohio road is nearing the end. The Baltimore & Ohio road is nearing the end. The company is fast getting into shape to handle all freight, and the strikers are becoming discouraged. Several freight trains were sent out to-day with new men, and two trains are expected from Cumberland to-night. Traffic has also been partially resumed on the Mount Pleasant & Hickman Branch, where the strike started. Master Grashover of Lodge 198, Brotherhood of Brakemen, declares that the strike was unauthorized, and in accordance with his orders the yardmen at Gleuwood returned to work this morning. He left for Connelisville and Cumberland to-day, and will order the men back at all points along the Connelisville and Cumberland to-day, and will order the men back at all points along the line. This, it is thought, will break the backbone of the strike and cause a general resumption of work. A committee representing the employes of the Pittsburg & Wheeling division of the Baltimore & Ohio Railroad called upon Superintendent Patton this morning and made a request for 10 per cent advance in wages. The committee stated that their request had nothing to do with the present trouble, and if it was not granted a strike was not probable.

STARTLING DISCOVERIES. Ballots Changed After They Were Deposited in the Box.

In Precinct 2 of the First Ward stwenty-one Glover marked over by a single line and the name "frink" voted instead, have been discovered in the Congressional contest. The citizens who cast the ballots will be called next Monday in the Contest Court. They have already been questioned and claim that they voted for Mr. Glover for Congress. It is supposed that the ballots were changed by some one inside of the polling booth. The evidence will be presented to the next Grandjury.

This sum may be increased by receipts and rents \$40,000 or \$50,000, but still it will fall far short of reaching the amount made necessary to carry on the term to its close. As all sources of income at present visible will leave the teachers' fund at least \$40,000 short, there seems to be nothing left to do but close several weeks before June 17. This deficit af \$40,000 can thus be met only by shutting off salaries for ten days or two weeks, which will cause a saving of \$35,400 on the basis of \$3,540 expenditure for one day.

CHICAGO, March 9.-A largely attended meeting of Western nail manufacturers was held here to-day. The subject discussed was the price-list for the ensuing season, and the doors were closed and guarded. The deliberations were attended with an animated discussion, and although every effort was made to suppress news of the proceedings, it was ascertained that the majority of the members of the association were in favor of an advance in the card price. This action, it was claimed, was necessitated by the unsettled condition of the labor market.

this deficit is apparent and actual is said to be because the Committee on Ways and Means in making up their estimates last year for 1887, deliberately appropriated too much money. They fightred up the probable expenditures and then made the appropriations cover and then made the appropriation to much money. They fightred up the probable expenditures and then made the appropriations cover and the appropriations cover and the appropriations cover and the appropriation to do monthly appropriated too much money. They fight the same that the report of estimates as submitted at the meeting of July 13, 1886, Among the sources of income therein mentioned are the taxes of 1887 which there is no likelihood of the board getting 30 cents of that amount.

Chairman Wm. Koenig of the Ways and twas extremely reticent. He said the committee had not come to any conclusion as to the early closing. He had said privately last night that if things went on as they are now the end of the term could not be reached and that it might be necessary to close a week earlier. He had the hope, however, that by economy the schools might be pulled through all right. He did not explain, though, how the economy was going to be practiced in the matter of the teachers' salaries.

Secretary Wash, when seen, said: "I have no doubt that if the schools run the full term, as they are running now, there won't be enough money for the teachers' salaries by \$40,000. It is against the Constitution to run in debt, and the only thing that I see can be done to keep from violating the Constitution in that respect is to close before the rogular time. We have \$200,000 in bank, but that is for special funds which cannot be touched. I don't want to say, of course, that we have \$100.000 in bank, but that is for special funds which cannot

Miss Dauvray was up bright and early yesterday and dressed in a sealskin cloak, a stylish bonnet, and with diamonds glittering in her ears, she told the story of her annoyance to Justice White at the Yorkville Police Court. Golding, who had been brought in, stood at the bar looking sadly up at the richly attired acress. He is a short young man, with black cyes, black mustache and black curly hair, he had on a brown overcoat much worn and faded and his trousers were worn into a fuzz all around their bottoms. He seemed too dazed to say anything in his own behalf, but simply murmured to Justice White that his motives were mornable and he had done no wrong. He was told that he must give \$300 ball for his good behavior for three months. As he was led away to be locked up he cast for longing look at Miss Dauvray. At first he took his sentence very hard and wept a little. The Post-Dispatch correspondent found him the jail looking dreamily out of a small window into a Yorkville alley. He said he had sentfor a friend to get ball for him.

His Plan for Lessening the Rate of Taxa, tion in the City.

Comptroller Campbell is working on the taxation problem. While aiming to do justice to the city of St. Louis he is. under his planmade to appear to those not familiar with the question, as advocating an increase of the burden. The work of adjusting the taxes has many disheartening features about it, principal among which are the results of the work done by the District Assessors. Under Article 10, Section 11 of the State Constitution, the maximum rate of taxation for

referred to is one increasing the rate from 1 per cent to 112 per cent for St. Louis. At this rate the taxable values might be reduced to about \$150,000,000 and still supply all the necessities of the Municipal Government, and at the same time decrease the exorbitant proportion paid to the State, aithough St. Louis would still pay much more than her share. By increasing the rate and decreasing the taxable valuations, the city will come by its own and the property-holders here will not be forced to do as much work for the State then as is required from holders in other portions of the State. The needs of the City Government cannot be decreased, and with the 1 per cent limit it will be necessary to force up the values to meet the increase expenses. With each increase of taxable values, the State comes in for additional revenue so that the people of St. Louis must pay to the State out of all proportion. President J. J. O'Brien has just prepared the appended statement of the taxse of 1887 and forwarded the same to the State Additor. The statement is to the Work-house on peharges of pretit its respective for the taxes of 1887 and forwarded the same to the State Additor. The statement is

\$ 22,128,170 212,780 41,030 114,770 80

As this total increases, the State's share increases and the injustice to St. Louis becomes greater. It is to remedy this that the bill has been drawn up. It is now in the hands of the Engrossing Committee of the House of Representatives.

Common courtesy would dictate that the Recorder should have the right to superintend and control the changing of his books. All the Municipal Assembly have any right to do is to make the appropriation for the change. I know if they attempted to take the records of this court out of the clerk's hands to change them I should make a very vigorous kick, and so would any other judge of a court at any attempt of this kind to change his books and take them out of the clerk's hands. Yet there take them out of the clerk's hands. Yet ther is no more reason why court records are mor important or should be more sacred than th records of the Recorder's office."

THE best assurance of the success of railroad legislation at this session of the Legislature is that it would be exceedingly uncomfortable for the members to go home without passing a satisfactory measure. There is a great deal of popular feeling on this question, and the feeling as not on the side of the railroads.

It will now be in order for the ballot-stuffers to gue the Grand-jury, laying damages at not less than \$125,000 in each case.

A WARNING EXAMPLE.

What the Democrats of Missouri are doing for their organization by placing it under the control of railroad attorneys is seen in the repudiation of the party's platform by about one-third of the members of the present Legislature. These gentlemen seem to think that if the Democratic Convention really meant what it elected at the same time a committee notoriously hostile to the platform.

When the Chairman of the Democratic its Executive Committee both spend the winter at Jefferson City lobbying against the party platform and helping the Republicans to defeat it, and the State Constitution at the same time, just such a spectacle as that which we now see at Jefferson City is to be expected-and that is nothing more nor less than a Democratic Legislature controlled by a Republican minority, aided by a small squad of railroad tools who call themselves Democrats. But this is just what the Post-DISPATCH predicted as soon as the con-

THE TERMINAL FACILITIES BILL.

Senator Castleman will call up his terminal facilities bill and move for a reconsideration of the vote by which it failed to pass at an early day. He is hopeful of pulling the measure through with a full Senate, and will watch his opportunity when all of the Senators are present. The bill fell just four votes short of receiving a constitutional majority.

THE SENATE RAILROAD BILL.

The Senate railroad bill is now pending in the House Committee on Internal Improvements, from which it will not be reported to the House until after its friends have effected a combination with the Republicans, and there is apparently some chance of its passage.

In the House yesterday the bill appropriating \$250,000 for the improvement of the State Capitol was passed after half an hour's debate. The Jefferson City people celebrated the event at night with bondres and fireworks.

But Judge Brewer said from the bench that inasmach as the Wabash litization was unfamiliar to his brother Judge Thayer and that exceedingly important questions arose on the application, they had deemed it wise to defer a decision until a week from next Monday (March 21), which would be the first day of the March term. portant and define the rights of all parties to the litigation.

Gen. Hubbard, of the Purchasing Committee, said he had a suggestion he would like to make to the court. Under the order of December 31 the countities was directed to pay into the registry of the court \$1,000,000 in cash and give bond for the payment of \$1,000,000 more when it should be required. On the fulfillment of these conditions possession of the lines west of the river would be given the committee. He now asked that inasmuch as the \$1,000,000 cash had already been paid in and the bond-requirement only remained unfulfilled, that the committee be permitted to transfer the property to the new company, the Wabash & Western Railway Company, which company should give the bond required by the court. He proposed to transfer the liability from a company of individuals to a corporation. If the Court required that this further amount of \$1,000,000 be paid in cash the committee would pay it in; but some of the still outstanding receivers' certificates would not mature before the middle of summer and the committee did not want the money tied up in the court until the time of maturity. The committee was, however, anxious to relieve itself as soon as possible of all responsibility, and asked for some order of the court that would permit them to make the transfer at an early day.

Judge Brewer said that it had been the intention of the court for its receivers to retain possession of the system until such a time as it could finally discharge the company. Bus recent events had led the Court to believe that it would be wise for the Purchasing Committee to take possession at an early date and the order of December 31 was made with that in view. The Court wished to rid itself of the property as speedily as possible, doing exact justice to all parties in interest. He asked that Gen. Hubbard's suggestion be reduced to writing and submitted in form.

Master in Chancery E. T. Allen rose for instructions. A clause of the order of Decemen Mrs. Johanna Mahan, widow of John Mahan, intered a suit to-day against the Shapleigh-Cantwell Hardware Company, claiming damages in the sum of \$5,000. She obtained leave of court to sue as a poor person. Her husband lost his life at the collapse of the hardware building on Main street, Saturday, afternoon, December 11, 1886. Mrs. Mahan states that her husband was employed as a packer, and that the fall of the building was owing to the defective condition of the walls and the negligence of the firm in overloading the upper floors with heavy goods.

gestion be reduced to writing and submitted in form.

Master in Chancery E. T. Allen rose for instructions. A clause of the order of December 31, he said, directed him to make a report to the court of earnings, expenditures, deficiencies and surpluses of all the lines in the system up to the date of the order. He had been unable to comply with this direction, as until a week ago the receivers had not been in position to submit to him the accounts for the purposes of the investigation. The report of the receivers which had been often referred to in the past two days' argument, was not a report filed in court, but a compilation made by the receivers at his (the Master's) suggestion to guide him in the investigation to be pursued under the order. There are before him now on references intervening petitions

Some of the ladies of the board at once took up the suggestion, and so feasible does the plan seem to be that it is spreading rapidly among the ladies of the different churches. Although only a few days old, so popular has the scheme become that already the first bed under the new organization is in operation. This makes two free beds the Hospital now has, the other having been endowed by the Cumberland Presbyterian Church. The reason why the plan has resulted so quickly in the opening of a bed is because a number of the wealthy ladies have taken a lot of shares and paid up for the year in advance. Asking for the armiess sleeve of the Confederate general, the Governor gracefully placed the button in the shirt-cuff, and said to Gen. Oates that he desired to leave with him a memento, that as upon the soil of Pennsylvania, and perhaps with a Pennsylvania gun in the hands of a Pennsylvania soldier he had lost his arm, he wanted to present him with the button as an evidence that he, as the Executive of the State at the time of the struggle, had forgotten the past and would bind the wounds of his foes with ribbons of love and goodfellow-The damage suit of Knipper against the Southern Railway Company, Sixth street line, is before a jury to-day in Judge Lubke's court. THE RECENT EARTHQUAKE. rrespondent writes from Mentone: We are greatly surprised here at the sensational counts of the earthquake which have appeared in the London newspapers. If we are to elieve them Mentone is a city of the dead. Two hundred and eighty houses are in ruins, he shops are closed, English ladies are going in a buggy dashing madly along behind a panting horse, which was kept plunglong ahead at his limit of speed by constant lashing with the whip. Just in front of the rig were a couple of bloyolists, leaning over the handlebars of their tall wheels and pumping for dear life. Everybody thought it was only a harmless race between flesh and steel, until just as the flying party reached the Y. M. C. A. building at Twenty-ninth and Pine streets, the horse wasseen to waver. One of the belogilists yelled: "Look out, your horse is going to fall!" but no notice was taken, the whip falling only the faster. Only a few feet further the beast struggled, and then he stumbled and went down, a complete wreck. An immense throng gathered, till finally a policeman came along and ended the animal's sufferings by shooting him. It turnedjout that the driver of the phorse, which was a speedy animal, had attempted to run the wheelmen down shortly after leavurent that she had neglected to don her tresses.

SIR MICHAEL HICKS-BEACH. The resignation of Sir Michael Hicks-Beach owing to a cataract forming over his eyes, is a source of regret to all on account of its cause. As Secretary for Ireland his aspirations were good. He urged the rack-renting lords to reduce their rents, but he did not rise to the situation, nor did he decline to afford aid to these rack-renters in collecting the rents that he had admitted were unjust. Mr. A. Balfour is an amiable gentleman, but something more than this is requisite to meet the Irish problem. A SPECIAL SERVICE.

The Queen has commanded special service hamomory of the Duke of Albany, on Monday, the 28th of March, the third anniversary of his death, in the Woisey Chapel at Windsor, where he is now buried, his coffin being income he would do anything mean. He could not believe included in a new granite sarcophagus in that plendidly decorated building, it having been therefore the royal vault which lies beneath it, where it was originally placed. This memorial service will be a very inconvenient function for the Prince and Princess of Wales if they are requested to attend it, as they are due to arrive in Dublin on the evening of the 28th.

The fact that the presentation was contemplated was carefully kept from Mr. Pulitzer's knowledge until last night, when he was asked to go down into the press-room. The Signal Service Bulletins Practically Stopped-Radical Changes.

There was considerable disappointment on Change yesterday and this morning over the meagerness of the Signal Service reports. Out of eighty stations usually reporting only nineteen appeared on the bulletin, and these were teen appeared on the bulletin, and these were only such as are on the St. Louis circuit, a few from Colorado, Texas, Arkansas, Iowa and Missouri. All the Northwest and the Lake Region, both very important districts, and all the Middle and Eastern States were entirely unreported. As a consequence the big weather map on 'Change for the first time looked very sick, only a few marks being on it. Sergt. Weber was unable to draw the isobars or isotherms to indicate the whereabouts of the low and high areas, or to map out other important data. There was nothing to tell whether a cold wave was being generated in the Northwest or not, and the speculators that have looked to the map for information were left without their bearings. The discontinuance of the reports, as announced in the Post-Disparch, is due to the failure of the deficiency bill to pass, and the consequent want of money. This state of affairs will have to exist until July 1, the beginning of the new fiscal year. The midications are sent out as usual, but it is hard to tell when further curtailment will be ordered. Secretary Morgan stated to-day that the bulletins were much missed on 'Change, but nothing could be done but wait till July 1. The rumor that Rev. Ira R. Hicks is to be appointed daily weather prophet in the interim is not credited. only such as are on the St. Louis circuit,

A New Base Ball Club-The Registration

Figures—Notes and Personals.

A meeting of citizens was held last evening at Starkel's Hall for the purpose of organizing a base ball association. Mr. Ferdinand Heim, Jr., presided. It was decided to form a club by getting together the members of the old National team, which was considered one of the strongest non-professional aggregations in the country. After some discussion it was decided not to fit up the old park in Illinois City, but to lease a tract of land just East of Starkel's Park on the Rock road. The tract is level and will make an excellent ball field. It is a much more desirable location than the old park, being only about half the distance from the center of the city. After some discussion it was decided not to fit up the old park in Illinois City, but to lease a tract of land just East of Starkel's Park on the Rock road. The tract is level and will make an excellent ball field. It is a much more desirable location than the old park, being only about half the distance from the center of the city. The park will be fitted up in fine style. A handsome grand-stand, which will sent about 2,000 people, will be erected, and a good club-house will also be built. It is expected that everything will be in readiness for an early opening of the season, as

side of the city the election be held under the old law, and the returns sent to the Election Commissioners, who will certify to them to the proper officer or officers.

Yesterday was the first day of registration. The number who qualified far exceeded expectations, and the result shows that East St. Louis has a far larger legal vote than was generally supposed. The result of the registration by precincts is as follows: First Ward, Precinct, No. 1, 185; Precinct No. 2, 167. Second Ward, Precinct No. 3, 185. Third Ward, Precinct No. 1, 105; Precinct No. 3, 185. Third Ward, Precinct No. 1, 105; Precinct No. 2, 180. Total, 1, 370. The next and last day for registration will be next Tuesday. It is thought that when the registration is completed the registered vote will be about 1, 800. There was, as was expected, a large number of residents who could not qualify yesterday for the reason that they had neglected to take out naturalization papers. A gentleman who holds a responsible position under a big corporation and who was formerly an Alderman of the city, was refused registration for this reason.

TROUBLED BY INSOMNIA. Henry Schmidt Kills Himself Very Early

This Morning. This morning another suicide by shooting was committed in the same neighborhood in which Niesen killed himself yesterday. This morning Henry Schmidt, a German, 50 years of age, residing at No. 828 South Twenty-sec or age, residing at No. 828 South Twenty-second street, was the individual who did away with his own life. He was better known by the name of "Capt." Schmidt, and formerly kept a saloon on Franklin avenue. About a year ago his wife died and he himself has been sick for some time. He was troubled with insomnia and frequently spent the night in a chair, as he slept with more comfort there than in bed. As a result of his illness he became despondent and had evidently determined some time ago to end his sufferings. Last night he slept in a rocking chair in the front room of his house. His sleep was a troubled one, however, and about 4 o'clock this morning he arose and got his revolver from the bureau drawer, and then going back to the chair he sat down, placed the weapon, a S8-caliber revolver, to his head and sent a bullet crushing through his right eye and into his brain. The report of the weapon aroused the whole household, and, rushing into the room, they found Schmidt sitting up in the chair dead. Officer Danaher was called in and took the weapon from the dead man's hand and brought it to the Four Courts. Schmidt leaves five children, one of them being married. Fatal Explosion in a Shingle Factory-The Dead and Injured.

GRAND RAPIDS, Mich., March 9 .- The boiler of Gibbs' shingle mill near Edmore, early this morning, exploded with terrific force, completely wrecking the mill and causing terrible fatality. Two men were instantly killed. Their names are not known. Six or seven were seriously wounded, one of whom will probably die, The loss to the mill is estimated at from \$3,000 to \$4,000, covered by insurance. No cause has been assigned yet for the acci-

No cause has been assigned yet for the accident.

The following are additional particulars of the explosion at Edmore: The entire crew was not on hand. Charles Waters, fireface, was found, with the entire firebox laying on him. His head was jammed to a pulp; one arm was gone and his bowels were protruding. He has no relatives here. Denny Sherlock, 14 years old, who attended a machine, was struck in the head, and back by a failing timber and died shortly after. Thomas Sherlock, brother of the latter, has a bad scalp wound, and fears are entertained that he is injured internally and will die. John Barlow and John Brown, packers, are both slightly injured above the shoulders and face. Simon Rodson, a teamster, had his thigh broken. He was driving a team of oxex twenty-five feet from the mill. A section of boiler killed both oxen. John Fought and others were shaken up severely, Fought being thrown 20 feet and landing along side a circular saw, narrowly escaping death. Dan Ostrander had three ribs broken and was scalded from the hips down, the flesh peeling from his bones. He will probably not live through the day.

In the Circuit Court this morning the case of Sam Lannigen, charged with assault with attempt to kill was on trial. About two months ago the rolling mill men of East St.
Louis gave a ball at Heim's Hail, and while
the festivities were in progress Lannigen
and John S. Bowman created a disturbance by
their noisy conduct. They were put out of
the hall and Lannigen fired five shots through
a window. One of the bullets struck a man
named Martin Garvey in the hand, but no one
else was injured. The case was given to the
intry this afternoon.

The remains were laid to rest in Green mount Cemeters. Scott of Shiloh Valley has sold his farm to Mr. Fred Rhein. The price paid was \$75 an acre. Mr. Scott intends to move to Randolph County, where he has purchased a farm of 400 acres.

Under an Avalanche.

From the Challis (I. T.) Messenger.

A correspondent writing from Bay Horse, Custer County, gives the details of a terrible avalanche near that place recently, in which Col. O. R. Putney, an old miner, lost his life. Snow fell for ten days, and on the last day, says the correspondent, "the wind blew in fitting gusts, with the snow coming faster. Old-timers would shake their heads as they looked up at the mountains and say to the younger inhabitants: "Look out for snowslides." People living anywhere in the vicinity of a slidedistrict moved their families down in town. At 9.30 p. m. the resolution of the above stocks, also Adams Mining Company Stock. From the Pall Mail Gazette

The parish of Glenbeigh lies far away down in the extreme south of the kingdom of Kerry. It is as desolate a spot as can be found on all the western coast. The nearest town is Castleisland, notorious as the heart and center of the most disaffected district in Ireland. To reach it from Killarney a long journey across country of twenty miles must be taken, and from Tralee the distance is only five miles less. The village which is the scene of the present evictions lies in a ravine among the hills, situated some height above the sea, in a bleak, exposed situation. For the tourist in search of a picturesque wilderness the locality is attractive enough, and there is plenty of shooting on the hills to satisfy the sportsman, but for the husbandman it is as undesirable a location as could be well imagined. Like many hundred thousand acres of land in the West of Ireland, it is a waste of bog and rock. But for the constant labor of the cotters who are nestled among the boulders it would, in a very few years, relapse into a waste which might afford pasturage for snipe, but for nothing else.

Greene of Charlottesville, Va., to-day, as he, with a group of ex-Confederates, was studying the panorama of the battle of Bull Run. Said he: It is a fact not generally known that a serious-accident occurred to Gen. Robert E. Lee the morning after the second battle of Rull Run. Gen. criminally assaulting two little white girls in their laundry on the 3d inst., had preliminary hearings in the Court of Criminal Correction this morning and were both discharged. Lee was accused of assaulting Laura Raiser and Day Annie Kaiser, two sisters living at 1506 Franklin avenue, aged 15 and 13 years respectively. PORENOON SESSION, CLOSING I P. M.

Wheat—This morning's market was about a repetition of yesterday's. The curb on May wheat in Chicago was said to be 85½e, which created a feverish and uneasy feeling, but cables were dull, though steady, the amount on passage 888,000 bu larger, and the weather spring-like, which prompted the local crowd to sell, and when Chicago opened and broke to 8½e straight, the selling here quickly weakened prices. August, which opened the up, dropping the in no time. Subsequently there was, a further decline all along the line, with free selling, as the local traders were bearish and looked for further declines and continued weakmess. The close was the lower for May and June, and the lower for the more deferred months from yesterday's close. Spot No. 2 red was very active at the lower rates, about 155,000 bu selling to Southern and city millers and froexport and quotable at close at 79½e East and 79½e this side. No. 3 red, 76½e asked E. side and bid for A. 76%e for M.

Corn was advanced by the unexpected and sharp boom in Chicago, where the manipulators were supposed to have taken hold of the market. Trading was moderate and confined to May, which sold up ½e, though late losing ‰g of this. Spot grades were higher, but dull, as there was only a local and order demand. No. 2, 38e in M., 36½e in St. L., 35½e bid regular; No. 3, 35w24%e this side, 34½e for M.; No. 2 white, 37½e bid this side, 37½e for St. L. and M.; No. 340, 35½e bid for M., 36e for M. NEW BRUNSWICK'S HERMITS.

Old-Sam Declares Fanny is Alive and Will Show Her to the Curious To-Day.

By Telegraph to the Post-Dispatch.

New York, March 9.—All day yesterday policemen patroled the embankment over-looking the ravine in which nestles the cabin nmeads at New Brunswick. The excitement over the disappearance of old Fanny Denmead, the wife of Samuel, has grown intense since the publication of the story, and the residents of New Brunswick are determined that the mystery must be solved. Two months have bassed since Fanny Denmead was seen striding about the streets of New Brucswick, carrying a basket filled with this which she had gathered from ash barrel or street. She did little chores for the town folks. When she was missed it was rumored that she had died and that her body was buried beneath the floor of the old cabin. Occasionally John Denmead gazed forth from the lattice barrier at the door of the hut. Robert, aged 60, was seldom seen. Sam, who is 70 years old, made his appearance at the opening of the hut. He quickly gilded out and ascended the embankment. His appearance was greeted with a shout from the crowd that had assembled and which followed at a distance. He went to the office of his counsel, C. F. Cowen. He was greatly worried about the crowd around his hut, and wanted the lawyer to secure assistance in driving them away. In a rambling way he spoke of his wife and her sickness. He spoke as if she was still alive, saying:

"Fanny only said yesterday, that I should had a secure of the source of the source of the source of the source of the was the saying:

"Fanny only said yesterday, that I should had the sickness. the residents of New Brunswick are deter alive, saying:
"Fanny only said yesterday, that I should see you."

"Fanny only said yesterday, that I should see you."

He admitted that she had been sick for two months. Nobody besides the men and Samuel's wife have ever entered the hut, and it is not considered strange that Samuel did not engage a physician to attend the sick woman. Last evening the Post-Disparch correspondent saw Samuel at the police headquarters, whither he had gone to explain the mystery, he said, of his wife's disappearance to Chief Fourat. He said that he knew his legal rights, and did not intend to have his home invaded by a curious mob.

"Fanny has been sick for a long time," he said, in answer to an inquiry. "She was coming down the hill to the hut, about a month ago, when she fell to the bottom. Her face was cut by the rough and stony side of the hill and she has been sick ever since. Then she caught a cold which settled on her lungs, and we have been compelled to nurse her very tenderly. She is alive and getting better. A sudden invasion now may cause a relapse and may prove fatal. This silly chatter about her being buried in the cabin is stuff and nonsons. Perhaps I will take a friend or two tomorrow to see her, but I would rather not."

A PROMISE.

He informed Chief Fourat later that he

morrow to see her, but I would rather not."

A PROMISE.

He informed Chief Fourat later that he would allow him to see his wife through the grating at the door to-day, and thus satisfy him that she is alive. He then went home, and some hours later it was rumored that the real reason of his visit to the lower section of the city was to secure the services of a lawyer to draw up a will. It is known that Robert Denmead has not been seen for weeks, and it may be that he also is dangerously ill. No member of the Brundage family visited New Brunswick yesterday. William and Warren Brundage, nephews of the missing woman, whose maiden name was Goodfellow, on leaving the city Monday from their ineffectual attempt to gain an entrance into the cabin, said they would return again from their Piscataway home and attempt to see their aunt. In order to quiet the prevailing excitement, an entrance will be nade into the hurt

WORLD OF SPORTS.

INDIANAPOLIS ADMITTED AS THE EIGHTE CITY IN THE LEAGUE.

Association as Compared With the New League—The Northwestern Association's Prospects—Kilrain Knocks Out Lannon-Base Ball Chat and Sporting Gossip. President A. S. Stern of the Cincinnati Re-

tocking Club returned to the city last night rom the spring meeting of the American A sociation at Cleveland. "This meeting," said Mr. Stern to a Post-Disparch reporter, "clearly proved that never in the history of the American Association did so great har mony exist as at present. The prospect etter and I think the race for the champion ship will be an interesting one. I do not be lieve that the Browns will have a walk-away as they did last year, and while I don't want to boast, I'm inclined to believe that the Cincinnatis will not be last in the race." "Is there any truth in the rumor that you

intend joining the League?" "No; not a word. I will pledge you my word of honor as a gentleman that as long as I'm at the head of the club it will ever desert the Association. The League is becoming weaker every day. Washingt is becoming weaker every day. Washington, Indianapolis, now that that city is in, and Detroit are all the weakest ball towns in the country and cannot support their clubs. You will see that the League will be in a worse fix than ever at the end of this season, while the Association will be stronger than ever."

Mr. Stern will remain in St. Louis until the Cincinnat Club arrives here to play the opening games in St. Louis with the Browns.

ALL SETTLED.

Indianapolis Purchases the Maroons' Player and Franchise.

The celebrated eighth-club problem of the League was settled yesterday at the meeting York. It was decided that Indianapolis would be taken in as the eighth city, that Kansas City would be dropped and the players of that club and the St. Louis Maroons would be divided up between Indianapolis would be divided up between Indianapolis and other clubs applying for them. The Indianapolis Club. when it opens the League season next month will be made up the following players: Myers, Hackett and Graves, catchers; Healy, Kirby, Boyle and Weidman, pitchers; Healy, Kirby, Boyle and Weidman, pitchers; Shomberg, first base; Basset, second base; Denny, third base; Glasscock, short stop; Cahill, right field; McGeachy, left field; Scery, center field. The Washington Club has been apportioned Whitney, pitcher; Al Meyers, second baseman, Donnelly, third baseman and O'Brien catcher. Radford, the Kansas City fielder, will go to the Metropolitans. The St. Louis Club is to be given \$12,000 for the trade, including the players and its franchise. Thus was the question finally disposed of and it will prove a surprise to none, perhaps, except the kansas City people, who clearly anticipated that they would be retained in the League. The summary disposal of the matter also proves that Spalding is not as powerful in League legislation as he has been generally believed to be. Kansas City, it is said, will not abandon the base ball business sltogether, even though its dearest wishes have been thwarted, but will doubtless join the Western League and skirmish for another club. This will be a rather easy task, as the dicker will leave not a few players foot-loose.

KILRAIN AND LANNON.

The Boston Slugger Goes to Grass in the Eleventh Round.

The much talked of fight to a finish between Jake Kilrain and Joe Lannon came off last night near Boston. The fight was to have been for \$1,000, but as the police interfered when the men came together some days ago, the money was taken down. Two sporting men, however, made up another purse, for which the men fought last night. The battle was Manager Jim Hart Talks About the Northwestern Aggregation.

Manager James A. Hart of the new Milwaukee team believes that the Northwestern League will be a superior base ball organization this season. He says:

"We are better fixed in every respect than the Southern League, having a higher class of players and more money to back our enter."

The Southern League, having a higher class of players and more money to back our enter. The Southern League to disband before traveling expenses will be less. I condiently expected by the Southern League to disband before the end of the base ball season."

The different cities to be represented in the Northwestern League are: Milwaukee, St. Paul, Minneapolis, Eau Claire, Duluth, La Crosse, Oshkosh and Des Moines. The season will open about April 30, and each club will play 126 games. Alf the teams have engaged their players and are about ready for the championship struggle. The only weak clubs in the League are Duluth and Eau Claire, but it is probable that these will make an effort at strengthening the weak points.

Mr. Hart says that the Milwaukee players will report for duty April 15. He says that he has received over 300 applications from players who want positions in his team. These include some of the best known names on the diamond. The make up of the Milwaukee team will be as follows: Catchers, Strauss and McDonald; pitchers, Hart, Anderson. Rex.

The very attractive feature of the Clarksville road race will be the presence, for the first time in a contest, of the new styles of wheels which have been mapufactured since last season. As Hendee is to ride one and Kinge the other, the result is awaited with considerable interest. As the new wheels sell for \$50 less than the old, should they amount to anything and show speed, a big cut in prices is sure to result. Ladish is at the opinion, anyway, that the big prices will come down this year, and mentions the fact that a reduction is at hand right now.

FACE HUMORS

Seven Years of Physical and Mental Suffering Ended by Cuticura.

ABOUT seven years ago I had a humor break out upon my face; it started in a small blotch and looked like the sting of a bee, then it spread and looked like a ringworm, and became very painful. I at once went to one of the best doctors in the city, and he could do me no good. No less than twelve of the best doctors have had a trial at my face and all of them failed. I will not give you a list of their names, but will say that they were from Boston, New York and Maine, also from England, France and Canada. I have been a hotel cook at watering places; that is why I have had an opportunity of being among good doctors. They could not cure my face, and I had given up all hopes of ever being any better. Last June I went to Moosehead Lake, Maine, to cook for the season. My face was so bad I did not like to be seen. At the lake I met a gentleman from England. He told me to use your curricura Remedies and they would cure me at once. I did so. The result was, in three weeks the sores on my face were healed up. I used it all the season. My face is all well, and no scars to be seen. I have recommended it to a number, and in every case it has cured them. I would take agreat deal of money to put me back where I was one year ago, providing I did not know what your Curricura would do. I shall recommend it as long as I live, and shall ever remain.

H. STEVENS, East Jackson, Me.

A Most Wonderful Skin Cure. A Most Wonderful Skin Cure.

Have just used your CUTIOURA REMEDIES on one of my girls, and found it to be just what it is recommended to be. My daughter was all broken out on her head and body, and the hair commenced to come out. Now she is as smooth as ever she was, and she has only taken one box of CUTIOURA, one cake of CUTIOURA CURA SOLY, and one bottle of CUTICURA RESOLVENT. I doctored with quite a number of doctors, but to no avail. I am willing to make affidavit to the truth of the statement.
